ShapeBlue support ends 2 years after "Supported from" date

We will provide Reactive Support and Product Patching up until the "End of ShapeBlue support" date

We will provide "Proactive maintenance" patching for 1 year after "Supported from" date

We will provide Proactive Security Patching for 18 months after the "Supported from" date

*All future release dates are provided for guidance only and are subject to change if the software release date is delayed

The following is provided for information purposes. Full Terms & Conditions can be found at shapeblue.com

We will provide Reactive Support to any version of CloudStack our customers choose to install. However, we can only provide Proactive Maintenance and our Product Patching service to those versions specified above

Any version of CloudStack not specified above is deemed to be an Unmaintained Version

If an existing customer decides to install an Unmaintained Version we cannot provide our Product Patching service or Proactive Maintenance, but Reactive Support only

A new customer with an Unmaintained Version of CloudStack will receive Reactive Support, and Product Patching for (P1 issues only) as defined in our support proposal, but must commit to upgrading to a version specified on our support matrix within 3 months of a support agreement starting. If after 3 months of a support agreement starting the customer is still using an Unmaintained Version then we will cease to provide our Product Patching service for any issue, and will provide Reactive Support only
